

Name: \_\_\_\_\_

Date: \_\_\_\_\_

# Vocabulary Learning: Associations Drawing

## Needed Materials

Paper, markers, or crayons

## How To Play

One person draws on object. Then, that person gives the paper to other player and the other player must draw an object that goes with it.

Takes turns with your child being the leader. Once the second object is drawn, discuss how the two objects go together. See if you guys can draw a third and fourth object! This is a great start to categorization!!

## Note

Your child might not be able to actually draw the desired object and that is NORMAL. Just pretend his/her scribbles are what he/she says they are.
