# Tower Competition

## Needed Materials

Building Blocks

## How To Play

Find some building blocks. If you don't have blocks, you can use empty boxes such as cereal boxes or shoe boxes. Empty yogurt containers work well too!

Each player builds a tower. When the towers are done, it is time to decide which one is big and which one is little. Have your child be the judge. Once your child becomes good at comparing, start creating towers upon command. This means, decide beforehand to make little towers or big towers.

## Other Concepts To Target

- Colors
- Hard
- Soft
- Bumpy
- Smooth
