

Name: _____

Date: _____

F Cues

Speech therapists use a variety of cues during therapy including tactile (touch), verbal (words), and visual (visual models/mirrors) to elicit a correct sound production. Below are the most useful cues for /f/.

Visual

1. Point to your lip (to encourage your child to put teeth on lip)
2. Point to your mouth as you model the correct production

Verbal

1. Say "bite lip"
2. Say "teeth on lips"
3. Say "teeth"

Tactile

1. Touch bottom lip to remind your child to bite lip
2. Tell your child to touch lip and feel teeth
