Antonyms

What are antonyms? They are words that have opposite meanings. Example: “hot” and “cold.” **Why practice?** This skill helps improve your child’s word knowledge (semantics skills). Semantic skills are important for learning, remembering and using new vocabulary words.

Daily Activity To Practice Antonyms:

Instructions: Find a picture or object and have your child tell you the opposite
Name 2 words and ask your child, “are they opposites?”

Please fill out the log below. Make a checkmark every time your child practices.
