Date: \_\_\_\_\_

# Vocabulary Learning: Location Location Day

## Needed Materials

Nothing

## How To Play

Pick a day to focus on location of vocabulary words. Throughout the day, while in the car, shopping, playing, eating, etc....., ask your child about where you see certain objects

- Where do you find \_\_\_\_\_(vocabulary word)?
- Where do you see \_\_\_\_\_(vocabulary word)?

The great thing about this “game” is that your child is exposed to and challenged with a variety of different vocabulary words. Also, your child is thinking and talking about where things are located in their natural environment. The goal here is that he/she will then start to think in this manner about all new vocabulary concepts...forever :)
