Possessive S Drill Practice

Needed Materials

Possessive S Flashcards (located on the following page)

How To Use Cards

1. Print the cards or pull them up on some sort of device (computer, tablet, iPad, etc...)
2. First, name a few cards and have your child watch and listen to show him or her what type of response you are interested in. For example, point to a card and say “mommy’s keys” or “boy’s kite.”
3. After completing 1-2 cards, ask your child to repeat your responses for 2-3 more cards.
4. Once, your child has learned the pattern, encourage him or her to describe the cards without your verbal model.
5. If your child is having trouble saying the possessive S, there is a carrier phrase included with each picture. Say the sentence under the picture to try to prompt your child to answer with a phrase which includes the possessive S.

Notes To Parents: _____

Notes To Speech Therapist: _____

Possessive S

Whose baby?
Mommy's

Whose backpacks are those?
The children's

Whose book is this?
The boy's

Whose kite is this?
