# Story Structure Reading

## Needed Materials

A children's book that matches your child's language ability and attention.

## How To Play

Read a story with your child. Then, after a few pages or at the end of the book, ask your child to tell the story. Make sure all 3 components, who, where, and what happened are included.

If not, ask a needed questions such as:

- "Who was in the story?"
- "Where were hey?"
- "What happened?"

If your child still needs help, you can always flip back and point to the pictures that help your child answer the questions. This actually models an important skill of using a book to find information.

Then, have your child retell the story again.
