Towers Game

Needed Materials

Building Blocks

How To Play

Build a tower and then knock it down. That's it!

However, when building the tower, make sure to say "up" as you place each block on top of the tower. When the tower is built, have your child say "down" before he/she knocks it down. Once the tower falls down, talk about how many blocks fell down and how he/she should put them back up. Below are some other concepts to target while playing.

Other Concepts To Target

- Shapes
- Colors
- Big
- Little
