Who Questions Drill Practice

Needed Materials

Who Question Flashcards (located on the following page)

How To Use Cards

1. Print the cards or pull them up on some sort of device (computer, tablet, iPad, etc...)
2. Sit down at a table with your child and get out the cards.
3. First, ask the question “who is this?” while pointing to the card. Then, answer your own question. Have your child repeat your answer. Do this for a few rounds so your child starts to learn to answer "who" questions with a person or animal.
4. Once, your child has learned the pattern, point to a card and ask your child “who is this?” and wait for a response. If your child answers it correctly, say good job and move on to the next card. If your child makes a mistake, simply correct the mistake and have him or her repeat it and then move on.
